

Arwa Mohammed Ramadan

React Web Developer

Cairo, Egypt | 01150228070 | arwamohmd.32@gmail.com | [LinkedIn](#)

Education

Bachelor of Computer Science and Information

Minia University | Sept 2020 – July 2024

GPA: 3.18/4.0

Technical Skills

- **Programming Languages:** C++ (Data Structures, File Structures), Java (Object-Oriented Programming, OOP), Assembly Language, SQL
- **Web Development:** HTML, CSS, JavaScript, Bootstrap, SASS, React, Node.js
- **Blockchain:** Solidity, Truffle, Ganache, web3.js, Ethereum

Projects

Graduation Project - Trust IT

- Developed a secure payment system for service requests, utilizing Solidity and Truffle for smart contract development.
- Simulated a local blockchain environment using Ganache and integrated it with a user-friendly frontend developed in HTML, CSS, Bootstrap, and JavaScript.

Center Competitive Programming for School Students

- Analyzed and designed systems using SQL Server for data management.

Commerce Website – ITI

- Built an e-commerce platform for mobile phone sales using HTML, CSS, JavaScript, jQuery, and WordPress.

Experience

Blockchain Hackathon - Giza Systems

Oct 2023

- Collaborated with a team to develop innovative blockchain and Web3 solutions, showcasing leadership in project development.

Programming Competitions

- **Egyptian Collegiate Programming Contest (ECPC) | Aug 2023:** Ranked 7th place at the university level.
- **Minya's Syntax Smackdown Competition | May 2023:** Ranked 4th place at the university level.
- **Programming Warfare Competition | March 2023:** Ranked 3rd place at the university level.

- **Egyptian Collegiate Programming Contest (ECPC) | Aug 2022:** Ranked 19th place at the university level.

MEARN Stack Developer - Information technology institute (ITI)

July 2022 – Aug 2022

- Developed web applications using HTML, CSS, JavaScript, ES6, TypeScript, MongoDB, and React.

Extracurricular Activities

ICPC Minya – Mentor

Oct 2022 - Jan 2024

- Mentored over 30 students in C++ programming, focusing on advanced topics like algorithms and data structures.

ACM-HR

Oct 2021 - Jan 2022

- Organized HR events, collaborated with internal teams, and conducted interviews to select new members.
